Before using HAIRACTIV:

After 3 months of use with HAIRACTIV:

This is how HAIRACTIV works

• **Folicusan DP:** can protect against accelerated premature hair loss, revitalises the scalp and hair follicles, reactivates the hair growth cycle, has a positive influence on hair density and thickness, can promote the reactivation of the hair growth cycle.

• **Redensyl:** promotes hair growth, reduces hair loss, positive influence on hair density and thickness

• **AnaGain PF:** based on pea shoots, can stimulate specific signalling molecules in the dermal papilla and thus reactivate hair growth, reduction of hair loss, has a positive influence on hair density, anagen/telogen ratio (the proportion of active, growing hair follicles compared to hair follicles in the resting phase) can be increased

• **D-Panthenol:** moisture-binding, gives hair shine, suppleness and fullness, improves the condition of damaged hair (repair effect)

• **Koffein:** It is said to stimulate the hair roots and make hair grow again. Because caffeine is supposed to act as an opponent of testosterone on the hair roots.

What can HAIRACTIV do?

HAIRACTIV revitalises the scalp and supports the natural growth of your hair, resulting in fuller and stronger hair. Hair density and thickness are strengthened by highly effective ingredients and your hair is intensively nourished to promote a natural, healthy shine.

How does HAIRACTIV works?

High-quality, efficient ingredients in a unique combination ensure healthy, strong and fuller scalp hair. Caffeine strengthens the hair, while D-Panthenol binds moisture and adds shine and softness. AnaGain PF is based on pea shoots and stimulates and reactivates natural hair growth. Folicusan DP protects against premature hair loss and helps revitalise the scalp. Redensyl promotes hair growth, reduces hair loss and strengthens the hair. With regular use, the first results are visible after 3 months at the latest.
